Petitioner

FINDINGS OF FACT AND CONCLUSIONS OF LAW

* * * * * * * * *

The Petitioner herein requests a variance to permit a front yard setback of 36 feet in lieu of the required 50 feet and a side yard setback of 20 feet in lieu of the required 30 feet for Unit E, as more particularly described on Petitioner's Exhibit 1.

The Petitioner, by Wayne E. Garrity, President, appeared, testified and was represented by Counsel, Paul J. Redmond, Esquire. There were no Protes-

Testimony indicated that the subject property, known as 1830 Woodside Avenue, is zoned B.R.-C.S.1. The Petitioner testified that he purchased the property at foreclosure in October 1987 and that at that time, the building as depicted on Petitioner's Exhibit 1 existed. Mr. Garrity testified that based upon the information set forth in the appraisal of the property obtained by the Petitioner, Unit E has existed since prior to the 1945 zoning regulations and may date back as far as 1875.

The Petitioner testified that prior to his purchase of the property, the uildings were used as apartments but due to violations filed against the proerty, their use as apartments was terminated in approximately July 1987. Mr. arrity testified that he proposes to renovate the Unit E for use as a showroom and office space for his plumbing business. He testified that his business yould suffer tremendous hardship if the variances were not granted as the buildming cannot be saved if strict compliance with the zoning regulations is re-

general welfare.

The Petitioner seeks relief from Sections 238.1 and 238.2 pursuant to Section 307 of the Baltimore County Zoning Regulations (B.C.Z.R.).

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

It is clear from the testimony that if the variances were granted, such use as proposed would not be contrary to the spirit and intent of the B.C.Z.R. and would not result in substantial detriment to the public good.

After due consideration of the testimony and evidence presented, it is that a practical difficulty or unreasonable hardship would result if the riances were not granted. It has been established that the requirements from ich the Petitioner seeks relief would unduly restrict the use of the land due the special conditions unique to this particular parcel. In addition, the var lances requested will not be detrimental to the public health, safety, and

Pursuant to the advertising, posting of the property, and public hearing O a son this Petition held, and for the reasons given above, the variances requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 3100 day of June, 1988 that the Petition for Zoning Variance to permit a front yard setback of 36 feet in lieu of the required 50 feet and a side yard setback of 20 feet in lieu of the required 30 feet for Unit E, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, subject, however, to the following restriction:

> 1) The Petitioner may apply for his permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at his own risk until such time as the applicable appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.

PETITION FOR ZONING VAMIANCE TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 238.1 To allow a front yard setback of 36 feet in lieu of the required 50 feet for Unit E. and 238.2 To allow a side setback of 20 feet in lieu of the required 30 feet for Unit E.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County; for the following reasons: (indicate hardship or practical difficulty) Your petitioner purchased the subject property at auction on 10/5/87 with the intention of completely renovating all buildings and saving them from condemnation at a cost of over \$93.000.00. The existing buildings were built over 25 years ago and because of subsequent subdivision of the property now violate the setback requirements. None of the adjoining owners would be adversely affected by a variance of the setback requirements your petitioner would experience an extreme economic hardship if a variance is denied.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law For Baltimore County.

I/We do solemnly declare and affirm, under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

> RE: Item No. 308 - Case No. 88-462-A Petitioner: P & W Properties, Inc. Petition for Zoning Variance

Dear Mr. Redmond:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

Enclosed are all comments submitted from the members of the Committee at this time that offer or request information on your petition. If similar comments from the remaining members are received, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Dear Mr. Redmond:

This letter will confirm our telephone conversation on Wednesday, September 21, 1988 on the above-captioned matter.

As discussed, when the decision on the subject case was being posted on our zoning maps, the technician discovered an error in the zone lines as depicted in Petitioner's Exhibit 1 which was submitted in connection with this case. It will therefore be necessary for you to review the file with our Zoning Coordinator's Office to determine what action, if any, can be taken by the Petitioner in an effort to resolve this matter. Please contact Mr. Carl Richards, Zoning Coordinator, 494-3391, at your earliest convenience to schedule an appointment.

In the meantime, the Zoning Office will not release any building permits for the subject property until such time as this matter is resolved. If deemed appropriate, any permits which have been issued to date may be rescinded.

If you have any further questions on the subject, please do not hesitate to contact this office.

Dear Mr. Redmond:

This office has reviewed the latest revised plan dated 2/12/89 and tried unsuccessfully to contact you by phone. The following comments pertain to corrections that must be made prior to final review by the Deputy Zoning Commissioner to determine if an additional public hearing will be required:

> 1. Correct the zone line to agree with the 1"=200' zoning map (see enclosed) and title plan "plan to accompany zoning petition".

March 22, 1989

- 2. Arrange the proposed parking 90 degrees on a 22 ft. aisle for 2-way traffic.
- 3. Include a required turn-around area at the dead end bay with curbing or anchored wheel stops on the perimeter. Widen the one way entrance next to Building "E" to 17 ft. The shown 17 ft. driveway scales 9 ft. Design a 22 ft. 2-way driveway on the N/S, eliminate one parking space on the street side and provide additional required spaces next to unit "A" or parallel. Provide required screening from residential properties. Contact Avery Hardin in the Current Planning Office for the screening design requirements.

Carl, Herea list you asked for to goover Problems with Revised site plan Case NO. 88-462-A Yarking Data Storage" 1000 Must be clarified! Retail or office storage?? 3.) Unit A & pt. of B" Now in DR portion of site RTA or since existing for quite some time Non Conform Use - Sp. Hearing ?!? Needs zoning use Line as on 1 st submitted 5. No Commercial parking in DR zone (area).

Paul J. Redmond, Esquire March 22, 1989

- 4. Adjust the "zoning use line" to the outside of the required commercial parking spaces, correct and change the use area calculations (6,000 sq. ft. net lot area must be provided for each existing residential unit), and clarify "net" area in the calculations. Before revision the areas measure (18,148.75 - D.R.-5.5) and (9.682 - B.R.-C.S.-1). Check drafting of outline or correct square footage after amending the areas.
- Note "exist. 1 fam" on units A, B, & D and "residential storage only" on unit C. Darken tract boundary, show street centerlines, darken building outlines, provide floor plan including unit "E" breakdown with square footages. Describe storage area in "E" as either office or retail storage. Include and dimension any proposed highway widening. Include driveway channelization method (curbing, R/R ties, etc.). Include a 1"=200' scale vicinity map with streets labeled on the plan (the zoning map may be used as a guide). Show the surrounding uses and buildings on surrounding properties, including across the street. Correct lot size as shown from 0.661 ac. to 0.638 ac.
- Submit one clear, printed, revised plan initially under same case reference to me in this office for review.

If you have any questions, please do not hesitate to call me at
